

### Cub Crafters, Inc. Considers Compliance Mandatory

**EFFECTIVE DATE:** This NOTIFICATION is effective May 14, 2007.

**SUBJECT:** Aft Seat Strap Routing.

**MODELS AFFECTED:** All CC11-100 and CC11-160

**COMPLIANCE TIME:** Upon receipt and at each annual inspection.

**PURPOSE:** Ensure correct routing of aft seat straps.

#### INSTRUCTIONS:

1. It is important to ensure that after removal and re-installation of the aft seat, the straps that attach the seat to the fuselage are routed around the fuselage tubes and through the slide adjuster as shown in Figures 1 and 2.
2. Also, verify the straps are wrapped around the fuselage tubes in the correct location. Figure 3 shows the proper location for S/N CC11-00001 through CC11-00087. Figure 4 shows the strap location for S/N CC11-00088 to current.
